

CASA's For CASA

CASA's for CASA Playhouse Fundraiser

Construction Guidelines

To ensure your playhouse can be on display at area venues please follow these guidelines.

***A playhouse raffle fundraiser to benefit
CASA of Chautauqua County***

Playhouse Construction Guidelines

Measurements

Maximum Height: 8'0" Maximum Width: 8'0" Maximum Length: 8'0"

Please remember to account for the roof, overhangs, eaves, porch, planters, chimneys, etc. These measurements are required to allow your playhouse to fit through the doors of venues the playhouse will be displayed at.

Materials

Playhouses should be designed for outdoor use, utilizing materials that will withstand the outdoor elements. Playhouses should be easily moved with manpower and a forklift. Building a foundation that can easily be lifted by a forklift is encouraged. Please consider the weight of the playhouse while keeping construction quality and appearance in mind. Please refrain from using toxic paints or stains.

Exposed Dangers

Your playhouse may be viewed and touched by thousands of people including children. Please pay close attention to exposed corners, nails, screws and sharp edges. Please install a door handle that has a locking mechanism that can accommodate a standard lock to prevent entry while on display. CASA will provide a combination lock.

Signage

Please do not attach signage to the playhouse. A free standing display promoting your company is allowed and will be placed next to the playhouse while on display. CASA of Chautauqua County will not be held accountable for damage to promotional materials.

Appearance

We encourage additional props and toys in and around the playhouse to enhance the overall look and desirability. These small finishing touches help ticket sales considerably. Some examples of beneficial details are: window boxes, mail box, curtains, framed pictures, coat rack, flag pole, play kitchen, reading nook, shutters, door bell or seating area.

Lighting such as porch light or ceiling light are permitted as long as they are battery operated.

Transportation

Your playhouse may be on display at area trade shows and venues. CASA of Chautauqua County does not have the means to transport the playhouse. We would be grateful if you could help with transportation with prior notice, including delivery. If this is not possible, we will find a way for transport.
